*Subject to sighting of the new moon

MOON INFORMATION: We attempted to look for the crescent on the evening of Sat. 8th March and although it was overcast in London and South East in general, we have received confirmed sightings from North West of England. There were also reported sightings in Morocco and many other parts of the World. We have therefore commenced the Month on Sunday 9th March 2008. (Please check our website for details of individuals who have reported the sighting in UK)
