\*Subject to sighting of the new moon

**MOON INFORMATION:** Sheikh Sulayman Gani along with 70 – 80 people tried to observe the Hilal on the evening of Thursday 3rd July in West London, there were also small groups in various other parts of South East where the conditions were perfect but there was no reported sighting from anywhere. We also had negative reports from Morocco where again the conditions were perfect. We have therefore completed 30 days of Jumad al Ukhra. Based on the Umm ul Qura Calendar Saudi Arabia had 29 days and commenced the Month on Friday 4th July.

For general information only: There will be solar eclipse on 1st August. Even though we don't base our calendars on them, who says that calculations are not accurate? "The sun and the moon follow courses exactly computed." ( Surah Ar Rahman 55:05) Check on this link for accurate location of when and where it will be. <http://www.eclipse.org.uk/eclipse/0312008/index.html>
