*Subject to sighting of the new moon

MOON INFORMATION: The New Moon (Birth) was on Thu 11 October 2007 at 06h : 01m (BST). We had no reported sighting in the UK on the evening of Thursday. There was no possibility of sighting the moon as it set at 17h : 56m in the UK which was before Sunset.

Ru'ayt committees and experienced observers who confirmed negative sightings from Makkah al Mukkarama, Oman, Algeria, Mauritius, Namibia, Durban and Cape Town in South Africa, Nigeria, Portugal, France, Germany, Toronto in Canada and California. This coincides with the information we had from the observatory that there is no possibility of sighting the Moon (Imkan-e-Ru'ayt) on Thursday anywhere in the World. We therefore completed 30 days of Ramadhan.

Saudi Arabia had declared the Moon as seen on Thursday evening where the age of the Moon was less than 10 hours and Moonset there was also before Sunset. Even according to the Umm al Qura Calendar Shawwal should have commenced on Saturday 13th October.
